

FRAUD IS OFTEN ONE MOVE AWAY

PROTECT WHAT'S YOURS

It happens all too often - business owners find that they and their company have been a victim of fraud. Like a good move in the game of chess, you may not see it coming. Fraud can negatively impact an organization by undermining its financial security and damaging its reputation.

At Winter, Koman, Moter & Repp, S.C. (WKMR) our Certified Fraud Examiners (CFE) can help you protect what's yours, putting internal controls in place to help prevent and detect fraud.

CERTIFIED FRAUD EXAMINATIONS

WKMR CFEs have the ability to:

- Identify the underlying factors that motivate individuals to commit fraud
- Examine data and records to detect and trace fraudulent transactions
- Interview suspects to obtain information
- Advise clients as to their findings
- Write investigation reports
- Testify at trial

There are moves you can make if you believe fraud is taking place within your business. Our specialists will perform an examination of your records and are trained to detect fraudulent patterns and recognize any abnormal transactions. A fraud examination does not constitute an audit in accordance with Generally Accepted Auditing Standards.

If fraud is uncovered, we will provide a complete report of the evidence found documenting and quantifying losses that you may have incurred. Our CFEs will work closely with you and your legal council to resolve and recover losses.

Don't wait for a "Checkmate." Protect what's yours today. For more information on our Fraud Services, give us a call.
